

# “CHATGPT PARISIAN PAWS PROMPTS BY SAJAWAL CREATES”

## PROMPT - 1:

ULTRA-PREMIUM PARISIAN PET FASHION PHOTOGRAPHY | VERTICAL 3:4 |  
PHOTOREALISTIC | CINEMATIC LUXURY EDITORIAL

### FACE REFERENCE:

**The attached reference image is provided specifically as the strict face and identity reference for the woman.** Preserve her recognizable facial identity, facial structure, natural features, apparent age, skin tone, hairstyle, hair color, and overall appearance accurately. **Do not change, redesign, beautify, or reinterpret her face. No face drift.**

Create a realistic luxury editorial photograph that feels like an authentic arrival moment outside an upscale Parisian location.

### SUBJECT:

Same adult woman from the attached face reference.

Same sophisticated beige/tan trench coat.

Same premium dark green luxury pet carrier with tan leather trims, structured canvas construction, realistic brass hardware and leather details.

Same small fluffy white dog inside the carrier.

### UNIQUE SCENE & POSE:

The woman has just stepped out of a sophisticated dark vintage European automobile parked beside a Parisian sidewalk.

The car door remains partially open behind her.

She is standing beside the open door, body angled slightly away from the camera.

One foot has just stepped onto the pavement while the other remains near the car threshold, creating a natural transition between entering and exiting the vehicle.

She holds the pet carrier naturally against her body with one hand while her other hand lightly touches the open car door.

Her head turns toward the camera as if she has just noticed the photographer.

The dog is comfortably visible above the carrier and looks toward the camera.

The moment must feel spontaneous and physically believable.

#### **CAMERA ANGLE:**

Camera positioned approximately at waist height, slightly to the front-left of the vehicle.

Use a subtle low three-quarter perspective that captures the woman, carrier, dog and partial automobile together without making the car overpower the subject.

The camera should feel like a photographer standing naturally on the sidewalk.

#### **COMPOSITION:**

Vertical 3:4.

Woman occupies the main visual focus.

The open car door creates a natural framing element behind her.

The carrier and dog form the secondary focal point.

Use the vehicle body and café architecture as leading lines toward the woman.

Avoid perfectly centered commercial symmetry.

#### **VEHICLE:**

Elegant understated vintage European luxury automobile in a deep neutral tone, realistic polished metal and glass, authentic proportions and period-inspired detailing.

The vehicle must remain secondary to the woman and pet carrier.

No visible brand emblem or recognizable logo.

#### **ENVIRONMENT:**

Upscale Parisian street outside an elegant café or boutique hotel, historic cream stone architecture, tall windows, understated greenery, cobblestone pavement and subtle morning street activity.

#### **LIGHTING:**

Soft early-morning natural light.

Warm sunlight gently touches the woman's hair, face and shoulders while the open car door creates realistic shade across part of the scene.

Subtle reflections appear on the automobile's paint and glass.

Natural contact shadows beneath the woman's shoes and carrier.

**COLOR PALETTE:**

Beige trench coat, deep muted green carrier, tan leather, ivory-white dog, charcoal automobile, cream Parisian architecture, grey pavement and subtle warm brass.

Sophisticated, muted and realistic.

**CAMERA & OPTICS:**

ARRI Alexa Mini LF

75mm lens

Waist-height perspective

f/2.8

Natural optical depth

Subtle cinematic compression

Realistic shallow depth of field

Warm-neutral film grading

Subtle film grain

High dynamic range

Natural skin tones

Professional luxury editorial photography

**REALISM PRIORITY:**

The woman's face must remain faithful to the attached face reference.

Natural anatomy, realistic hands, accurate fingers, physically correct body proportions, realistic clothing folds, realistic carrier weight, natural dog anatomy, individual fur strands, authentic reflections and physically accurate shadows.

The image must look photographed rather than rendered.

**ABSOLUTELY CLEAN PHOTOGRAPH:**

No text, no typography, no logo, no brand name, no watermark, no border, no frame, no graphic overlay, no promotional copy, no poster design, no readable signage, no artificial graphic elements.

**NEGATIVE PROMPT:**

generic face, different identity, face drift, altered facial structure, beauty filter, plastic skin, CGI, 3D render, illustration, cartoon, unrealistic anatomy, distorted hands, extra fingers, malformed limbs, oversized head, duplicated dog, extra animals, distorted carrier, artificial fur, floating objects, unrealistic vehicle, recognizable car logo, text, letters, typography, watermark, logo,

border, graphic overlay, poster layout, excessive HDR, oversaturated colors, fake reflections, unnatural lighting, extreme blur, artificial bokeh.

## PROMPT - 2:

**ULTRA-PREMIUM PARISIAN PET FASHION PHOTOGRAPHY | VERTICAL 3:4 | PHOTOREALISTIC | CINEMATIC EDITORIAL | NATURAL CANDID MOMENT**

### **FACE REFERENCE:**

**The attached reference image is provided specifically as the strict face and identity reference for the woman.** Preserve her recognizable facial identity, facial structure, natural features, apparent age, skin tone, hairstyle, hair color, and overall appearance accurately. **Do not change, redesign, beautify, or reinterpret her face. No face drift.** Her face must remain clearly recognizable as the same person from the attached reference image.

Create an authentic high-end Parisian street-fashion photograph featuring the same woman, same beige trench coat, same premium dark green luxury pet carrier, and same small fluffy white dog. **Everything about the master concept remains consistent; only the pose, action and camera composition are different.**

### **POSE & ACTION:**

The woman has stopped beside a small elegant Parisian café terrace during the morning.

She is standing beside a small round café table while gently lowering the pet carrier from her shoulder toward the ground beside her chair.

Her body is naturally bent slightly forward as she carefully checks on the dog.

The dog remains comfortably inside the carrier, looking upward toward her face.

She looks down at the dog with a subtle genuine smile, creating a believable emotional interaction rather than a fashion pose.

One hand rests naturally on the carrier while the other gently touches the dog's head.

### **CAMERA ANGLE:**

Camera positioned slightly above table height, approximately 1.5 meters away, at a natural seated-person perspective.

Shoot diagonally across the café table so that the table occupies a small blurred portion of the foreground while the woman, carrier and dog remain sharply visible.

The camera should feel like an intimate candid photograph captured by a professional editorial photographer.

**COMPOSITION:**

Vertical 3:4.

Woman positioned slightly to one side rather than perfectly centered.

Use the circular café table, chair and doorway architecture as natural compositional elements.

The dog and woman's face form the emotional focal point.

**ENVIRONMENT:**

Elegant Parisian café terrace with aged cream stone walls, dark green café furniture, subtle brass details, large glass windows, cobblestone pavement and understated morning street activity.

**LIGHTING:**

Soft morning sunlight from one side combined with subtle warm café-window illumination.

Natural highlights on her face, hair and trench coat.

Soft realistic shadows beneath the table and carrier.

**CAMERA:**

ARRI Alexa Mini LF, 75mm lens, f/2.8, natural optical compression, realistic shallow depth of field, cinematic film grain, warm-neutral film grading, realistic skin and fabric detail.

**REALISM:**

Natural facial expression, authentic body language, realistic hands and fingers, physically accurate carrier weight, natural dog posture, individual fur strands, realistic skin pores, natural fabric folds and genuine environmental reflections.

**CLEAN PHOTOGRAPH:**

No text, no letters, no words, no typography, no logo, no brand name, no watermark, no border, no frame, no decorative lines, no poster graphics, no promotional elements, no readable signage.

**NEGATIVE PROMPT:**

AI-looking, CGI, illustration, cartoon, plastic skin, generic face, different identity, face drift, altered facial structure, beauty filter, distorted hands, extra fingers, malformed limbs, unnatural pose, duplicated dog, extra animals, artificial fur, distorted carrier, floating objects, excessive HDR, oversaturated colors, fake bokeh, text, typography, logo, watermark, border, poster, graphic overlay.

**PROMPT - 3:**

**ULTRA-PREMIUM PARISIAN PET FASHION PHOTOGRAPHY | VERTICAL 3:4 |  
PHOTOREALISTIC | CINEMATIC EDITORIAL | NATURAL LUXURY**

**STRICT FACE REFERENCE:**

The attached reference image is provided specifically as the strict face and identity reference for the woman. Preserve her recognizable facial identity, facial structure, natural features, apparent age, skin tone, hairstyle, hair color, and overall appearance accurately. **No face drift, no identity change, no facial redesign.** Keep realistic pores, natural skin texture, authentic facial proportions and subtle human imperfections.

**MASTER CONSISTENCY:**

Use the same woman, same beige/tan premium trench coat, same luxury dark-green pet carrier with tan leather detailing, same small fluffy white dog, same sophisticated Parisian luxury aesthetic. The visual should remain completely photorealistic and physically believable.

**SCENE:**

An elegant Parisian sidewalk café during a quiet early morning.

**GIRL'S POSE:**

The woman is **seated naturally on a classic Parisian café chair**, facing slightly toward the street. Her back is supported casually by the chair. One elbow rests lightly on the small café table while her other hand gently rests on the edge of the pet carrier positioned beside her chair.

She is **not walking and not standing**.

Her upper body is turned approximately 25 degrees toward the camera while her face looks directly into the lens with a relaxed, subtle confident expression.

Her trench coat naturally drapes around her seated body with realistic folds.

**PUPPY ACTION:**

The small fluffy white puppy is **standing with its front paws gently resting on the upper edge of the open carrier**, looking directly toward the camera with a curious expression.

Its ears and fur move naturally, with individually visible hairs.

**CARRIER POSITION:**

Carrier is placed on the pavement directly beside the woman's chair, slightly forward of her knees, making the puppy clearly visible without blocking the woman's face.

**CAMERA ANGLE:**

**Straight-on eye-level portrait camera**, approximately at the woman's seated eye height.

Use a moderate distance with a 75mm lens.

The composition should feel like an expensive editorial portrait rather than a normal smartphone photo.

**FRAMING:**

Woman and puppy occupy the central visual area.

Café table creates subtle foreground depth.

Soft architectural background creates natural framing.

No symmetrical advertising layout.

**BACKGROUND:**

Elegant Parisian café terrace, cream stone façade, dark green furniture, warm glass windows, subtle morning pedestrians and distant bicycles, all naturally blurred.

**LIGHTING:**

Soft morning window light from camera-left, gently illuminating her face and puppy. Natural soft shadow across the trench coat. Warm café interior glow subtly visible behind her.

**CAMERA:**

ARRI Alexa Mini LF

75mm lens

Eye-level camera

f/2.8

Natural optical compression

Realistic shallow depth of field

Soft cinematic bokeh

Subtle film grain

Warm-neutral film grading

High dynamic range

Natural skin tones

**REALISM:**

Realistic anatomy, natural hands and fingers, physically accurate sitting posture, authentic coat folds, realistic leather texture, natural puppy anatomy, individual fur strands, correct contact shadows and physically believable materials.

**ABSOLUTELY NO GRAPHICS:**

No text, no letters, no typography, no logo, no brand name, no watermark, no border, no decorative lines, no poster graphics, no readable signage, no promotional copy.

**NEGATIVE PROMPT:**

rear view, back-facing woman, over-shoulder pose, walking pose, standing pose, face turned away, generic face, different identity, face drift, plastic skin, CGI, illustration, cartoon, distorted hands, extra fingers, malformed limbs, duplicate puppy, extra animals, artificial fur, distorted

carrier, text, logo, typography, watermark, border, graphic overlay, excessive HDR, oversaturated colors.

#### **PROMPT - 4:**

### **ULTRA-PREMIUM PARISIAN PET FASHION PHOTOGRAPHY | VERTICAL 3:4 | PHOTOREALISTIC | CINEMATIC EDITORIAL | UNIQUE COMPOSITION**

#### **STRICT FACE REFERENCE:**

The attached reference image is provided specifically as the strict face and identity reference for the woman. Preserve her recognizable facial identity, facial structure, natural features, apparent age, skin tone, hairstyle, hair color and overall appearance accurately. No face drift, no identity change, no facial redesign.

Maintain the same woman, beige trench coat, premium dark-green pet carrier, small fluffy white dog and luxury Parisian visual language.

#### **SCENE:**

A beautiful quiet Parisian cobblestone lane with elegant cream architecture, subtle café terraces and soft morning atmosphere.

#### **GIRL'S POSE:**

The woman is standing stationary in the middle of a small cobblestone pedestrian lane.

Her body is angled diagonally across the street rather than facing straight toward the camera.

She holds the pet carrier in front of her with both hands at waist level, as though presenting or checking on the puppy.

Her head is tilted naturally upward toward the camera.

Her expression is calm and subtly curious.

She is not walking, not seated and not looking backward.

#### **PUPPY ACTION:**

The puppy is peeking over the front opening of the carrier, with its two front paws resting naturally on the upper edge.

The puppy looks straight upward toward the overhead camera, creating a distinctive visual connection between woman, dog and camera.

Its fluffy fur catches the morning light.

**CARRIER POSITION:**

Carrier is held directly in front of the woman's torso, clearly visible from above.

The leather handles and structured shape are naturally defined.

**CAMERA ANGLE:**

High-angle overhead camera, positioned approximately 3–4 meters above the subject and angled downward around 65–75 degrees.

The image should feel like a sophisticated editorial photograph captured from an elevated balcony or controlled overhead camera position.

This must be dramatically different from a normal eye-level fashion photograph.

**COMPOSITION:**

The woman's body forms a strong diagonal within the frame.

The cobblestone pattern creates natural geometric texture around her.

The puppy and her face create two distinct focal points.

Use negative space around the subject instead of filling the entire frame.

**BACKGROUND:**

The Parisian street itself becomes the main environmental element: cobblestones, subtle café furniture, architectural edges, muted umbrellas and natural morning details.

All background elements remain realistic and understated.

**LIGHTING:**

Soft overhead morning daylight with gentle directional shadows cast naturally onto the cobblestones.

Subtle highlights on the woman's hair, face, trench coat and puppy's fur.

No artificial studio lighting.

**CAMERA:**

ARRI Alexa Mini LF

35mm lens

High overhead camera position

f/4

Deep enough focus to retain the woman and puppy while allowing distant details to soften naturally

Subtle cinematic film grain

Warm-neutral Parisian color grading

Natural dynamic range

**REALISM PRIORITY:**

Physically accurate overhead perspective, realistic body proportions from elevated viewpoint, natural hands, realistic carrier weight, correct shadows beneath shoes and carrier, individual dog fur, natural skin texture and believable environmental lighting.

**ABSOLUTELY NO GRAPHICS:**

No text, no letters, no typography, no logo, no brand name, no watermark, no border, no decorative lines, no poster design, no promotional copy, no readable signage.

**NEGATIVE PROMPT:**

eye-level camera, rear camera, back-facing pose, over-shoulder pose, walking pose, seated pose, generic face, different identity, face drift, distorted overhead anatomy, oversized head, distorted hands, extra fingers, duplicate puppy, extra animals, artificial fur, CGI, illustration, plastic skin, text, logo, typography, watermark, border, graphic overlay, excessive HDR, oversaturated colors.

**PROMPT - 5:**

**ULTRA-PREMIUM PARISIAN PET FASHION PHOTOGRAPHY | VERTICAL 3:4 |  
PHOTOREALISTIC | CINEMATIC EDITORIAL | UNIQUE COMPOSITION**

**STRICT FACE REFERENCE:**

**The attached reference image is provided specifically as the strict face and identity reference for the woman.** Preserve her recognizable facial identity, facial structure, natural features, apparent age, skin tone, hairstyle, hair color and overall appearance accurately. **No face drift, no identity change, no facial redesign.**

Maintain the same woman, beige trench coat, premium dark-green pet carrier, small fluffy white dog and luxury Parisian visual language.

**SCENE:**

A beautiful quiet Parisian cobblestone lane with elegant cream architecture, subtle café terraces and soft morning atmosphere.

**GIRL'S POSE:**

The woman is **standing stationary in the middle of a small cobblestone pedestrian lane.**

Her body is angled diagonally across the street rather than facing straight toward the camera.

She holds the pet carrier **in front of her with both hands at waist level**, as though presenting or checking on the puppy.

Her head is tilted naturally upward toward the camera.

Her expression is calm and subtly curious.

She is **not walking, not seated and not looking backward**.

#### **PUPPY ACTION:**

The puppy is **peeking over the front opening of the carrier**, with its two front paws resting naturally on the upper edge.

The puppy looks **straight upward toward the overhead camera**, creating a distinctive visual connection between woman, dog and camera.

Its fluffy fur catches the morning light.

#### **CARRIER POSITION:**

Carrier is held directly in front of the woman's torso, clearly visible from above.

The leather handles and structured shape are naturally defined.

#### **CAMERA ANGLE:**

**High-angle overhead camera**, positioned approximately 3–4 meters above the subject and angled downward around 65–75 degrees.

The image should feel like a sophisticated editorial photograph captured from an elevated balcony or controlled overhead camera position.

This must be **dramatically different from a normal eye-level fashion photograph**.

#### **COMPOSITION:**

The woman's body forms a strong diagonal within the frame.

The cobblestone pattern creates natural geometric texture around her.

The puppy and her face create two distinct focal points.

Use negative space around the subject instead of filling the entire frame.
