

“CHATGPT SNOW DRIP PROMPTS BY SAJAWAL CREATES”

FOR GIRLS:

PROMPT:

Ultra-premium streetwear fashion portrait shot with a circular fisheye lens from an extreme low angle, camera looking up at the subject, strong perspective distortion with black curved vignette at the corners. A young woman with short wavy windswept brown hair and an orange knit beanie crouches in bright white snow, looking straight into the lens with a calm, serious expression, lips slightly parted. Her oversized hands dominate the frame: one hand reaching toward the lens in the upper left, the other forearm extended large in the foreground at lower right. She wears an oversized glossy black puffer jacket over a vibrant orange hoodie with drawstrings, orange ribbed cuffs showing at the sleeves, baggy black pants and black chunky sneakers. Background: deep saturated blue sky with fluffy cumulus clouds, a rocky snow-covered slope on the right, bright direct sunlight. Bold black, orange and white color palette, ultra-detailed photorealistic skin texture, premium color grading, luxury editorial photography, sharp focus, 8K, vertical 4:5 (1080x1350).

Negative prompt: text, logo, watermark, extra fingers, deformed hands, blurry, low quality, oversaturated skin.
