

“CHATGPT FLORAL DREAM PROMPTS BY SAJAWAL CREATES”

FOR GIRLS:

PROMPT:

Photorealistic cinematic photo, vertical 4:5 frame, shot from an extreme low worm's-eye view from inside the grass and wildflowers with a 24mm wide-angle lens, camera looking up. A 25-year-old young woman with fair skin and dark brown hair tied up in a loose messy bun with a few loose strands sits in the center of the frame, chest-up visible, lower body hidden by the flowers. Her shoulders face the camera squarely, head slightly tilted, looking straight into the lens with a calm soft expression and a subtle closed-lip smile. She wears a black oversized crewneck sweatshirt with small delicate white handwritten-style script on the chest and a thin gold chain necklace. Foreground: out-of-focus striped yellow-black bees and blurred yellow wildflowers on both sides, tall green stems and brown seed spikes, and one large soft warm orange bokeh blob at the bottom center of the frame. Middle ground: wild yellow cosmos-like flowers and tall grass around her, some stems sharp, some in soft blur. Sky: vivid turquoise-teal open sky with large white cumulus clouds on the left and smaller clouds on the right. Dozens of small orange petals, dandelion seeds and a few green leaves float in the air above and around her as if lifted by the wind, at different distances, some with motion blur. Lighting: bright natural daylight, sun high and slightly behind on the left, soft rim light on hair and shoulders, teal-orange color grade, slight haze, moderate vignette. Shallow depth of field, strong foreground bokeh, crisp subject, ultra-detailed skin texture, natural film look.

Negative prompt: illustration, CGI, cartoon, plastic skin, overexposure, heavy noise, extra people, buildings, wires, text overlays, watermark, logo, garbled or large text on clothes, deformed arms or shoulders, extra fingers

FOR BOYS:

PROMPT:

Photorealistic cinematic photo, vertical 4:5 frame, shot from an extreme low worm's-eye view from inside the grass and wildflowers with a 24mm wide-angle lens, camera looking up. A 25-year-old young man with short textured dark brown hair, light stubble and a strong jawline stands in the center of the frame, chest-up visible, lower body hidden by the flowers. His body is turned slightly to the left, chin raised, looking down into the lens with a cool, confident expression and a faint smirk. He wears an oversized cream-beige heavyweight hoodie with the hood down and a thin silver chain necklace. Foreground: out-of-focus striped yellow-black bees and blurred yellow wildflowers on both sides, tall green stems and brown seed spikes, and one large soft warm orange bokeh blob at the bottom center of the frame. Middle ground: wild yellow cosmos-like flowers and tall grass around him, some stems sharp, some in soft blur. Sky: vivid turquoise-teal open sky with large white cumulus clouds on the right and smaller clouds on the left. Dozens of small orange petals, dandelion seeds and a few green leaves float in the air above and around him as if lifted by the wind, at different distances, some with motion blur. Lighting: bright natural daylight, sun high and slightly behind on the right, soft rim light on hair and shoulders, teal-orange color grade, slight haze, moderate vignette. Shallow depth of field, strong foreground bokeh, crisp subject, ultra-detailed skin texture, natural film look.
