

“CHATGPT MID-AIR CHAOS PROMPTS BY SAJAWAL CREATES”

PROMPT - 1:

A cinematic, hyper-realistic photo of a young man caught mid-fall in front of an old, slightly worn suburban house with muted yellow walls, white window trims, and a red wooden fence. The scene is lit with soft, overcast daylight — diffused natural light, realistic skin tones, soft shadows falling top-front.

The man has short, tousled brown hair blown mid-motion, an expressive shocked face with wide eyes and an open mouth. He's wearing a **navy blue jumpsuit** with rolled-up sleeves, white ankle socks, and white sneakers. His body is tilted diagonally in mid-air, one leg kicked up high, arms flailing outward for balance — a chaotic, comedic mid-fall pose.

Above him, a grocery bag has exploded mid-air, its contents frozen in a floating arc: a torn brown paper bag, kale leaves, cherry tomatoes, oranges, an egg carton, a baguette, and a milk carton — all scattered with natural, uneven randomness as if gravity paused for a split second. On the concrete sidewalk directly below him lies a banana peel, hinting at the cause of the fall.

In the background: a red wooden fence in the midground, and the vintage suburban house behind it with faint curtains in the windows and patches of greenery on the sides. The foreground shows a cracked, slightly dirty concrete sidewalk.

Shot on a 35mm cinematic lens, low angle tilted slightly upward to enhance the floating effect, sharp focus on the subject with a soft depth-of-field blur on the background. Subtle motion blur on the hair and a couple of objects for realism. Color palette: muted cinematic tones with navy blue as the dominant accent, balanced by soft greens, reds, and warm bread tones. Mood: quirky, unexpected, slightly absurd but grounded in photorealism — visible fabric folds, realistic food textures, worn paint on the house, natural facial tension, no plastic AI look, 4K detail.

PROMPT - 2:

Shot on a 35mm cinematic lens, low angle tilted slightly upward to enhance the floating effect. His body is twisted sideways mid-air, back arched, both legs kicked up behind him as if flipped forward, one arm reaching toward the ground, the other thrown overhead.

PROMPT - 3:

Shot on a 35mm cinematic lens, eye-level angle from the side, capturing the fall in near-profile. His body is leaning straight backward, legs bent at the knees mid-kick, both arms flung outward for balance, head turned toward camera with a shocked expression.

PROMPT - 4:

Shot on a 35mm cinematic lens, front-facing angle slightly tilted, as if the camera caught him mid-spin. One leg extended high to the side, the other tucked under his body, torso rotated, arms crossed defensively in front of his chest as he loses balance.
