

“SAJAWAL CREATES PROMPT - 1”

A reference image will be provided. Preserve the exact facial identity, facial structure, hairstyle, skin tone, facial proportions, expression, and overall likeness of the person from the reference image. Do not alter or reinterpret the face in any way. Keep the person's identity 100% consistent and recognizable. Only modify the outfit, pose, lighting, environment, and composition.

Create a cinematic luxury portrait of the same person wearing a perfectly tailored matte black overcoat layered over a black turtleneck, standing confidently in a dark premium studio. The subject is looking slightly upward and to the right with a calm, ambitious expression. One hand is inside the coat pocket while the other rests naturally by the side. Behind the subject is a soft glowing horizontal white LED light partially hidden by dense cinematic smoke and volumetric fog, creating a futuristic luxury atmosphere. The background is deep charcoal black with subtle texture, floating dust particles, and elegant haze. Use dramatic Rembrandt lighting combined with soft rim lighting to sculpt the face and outfit, creating rich contrast and depth. Premium fashion editorial photography, luxury branding campaign, minimalist composition, realistic skin texture, ultra-detailed hair strands, expensive monochromatic color grading, subtle lens bloom, shallow depth of field, HDR, 85mm lens, f/1.8, ultra photorealistic, 8K, masterpiece quality, award-winning commercial fashion photography, luxury perfume advertisement aesthetic, no text, no logo, clean background.

Negative Prompt

Do not change the person's identity, different face, different hairstyle, different age, different facial features, low quality, blurry, cartoon, anime, illustration, CGI, overexposed, oversaturated, extra fingers, extra limbs, deformed face, bad anatomy, duplicate person, watermark, logo, text, cropped head, unrealistic skin, plastic face, noise, artifacts, distorted eyes, messy background, low resolution.
