

“CHATGPT QUIET AFTERNOON PROMPTS BY SAJAWAL CREATES”

MAIN Prompt 1:

Generate a Ultra-realistic luxury editorial fashion portrait of a solitary stylish young man sitting gracefully on a classic Mediterranean stone window ledge, peacefully reading an open book. He wears a relaxed deep emerald green linen shirt with a structured collar, long sleeves casually rolled to the forearms, paired with tailored light beige linen trousers. Natural linen fabric texture, realistic wrinkles, premium tailoring, timeless minimalist style.

The setting features a coral-orange textured Mediterranean stucco wall with authentic weathered forest-green wooden shutters. A dramatic triangular beam of golden-hour sunlight cuts diagonally across the wall, creating bold geometric shadows and striking negative space. Warm natural golden-hour sunlight softly illuminates his face and body with physically accurate highlights and shadows. Highly realistic skin with visible pores, natural skin texture, subtle imperfections, and lifelike tone variation—no smoothing or plastic appearance. Sharp tack focus on the man with exceptionally detailed facial features, expressive eyes, realistic hair strands illuminated by sunlight, natural beard stubble (if present), detailed hands gently holding an open book, and crisp linen fabric texture. Background architecture slightly softer for natural subject separation.

Architectural minimalism, timeless Mediterranean elegance, premium luxury menswear campaign aesthetic, cinematic warm-to-cool color grading, sophisticated composition, balanced negative space, authentic lifestyle editorial photography.

Captured on a full-frame DSLR, 85mm portrait lens, f/2.2 aperture, shallow depth of field, physically accurate lighting, realistic global illumination, photorealistic, hyperrealistic, ultra-detailed, 8K RAW quality, deep clarity, subtle natural film grain, vertical composition, no CGI, no illustration, no digital art.
