

“CHATGPT FIRST LIGHT PROMPTS BY SAJAWAL CREATES”

Boy Main Prompt 1:

Reference image attached — match the face, identity, skin tone, and features exactly from the reference photo.

Hyper-realistic cinematic 8K close-up portrait of a striking young man with medium-length, dark brown, slightly wind-swept hair falling naturally across his forehead. His eyes gaze upward and to the right, catching a sharp diagonal beam of natural light that illuminates the high points of his cheekbone, nose bridge, and jawline, light natural stubble adding texture. Naturally toned lips, calm intense expression. He wears a lightweight white silk-blend shirt with realistic fabric texture and natural fold detail.

The rest of his face and the background are cast in deep, dramatic shadow — strong chiaroscuro lighting emphasizing the interplay of light and shadow. Subtle fabric texture visible on his shoulder catching the edge of the light. The image captures a mysterious, introspective mood, with incredible fine detail in his skin, hair strands, and subtle natural reflections in his eyes.

Tack-sharp focus on the eyes and face as the primary subject, background falling into soft, deep shadow with minimal distraction to keep full attention on him. Ultra-realistic skin texture with visible pores, natural tonal variation, no smoothing, no plastic or waxy look. Physically accurate lighting and shadow direction, true-to-life color reproduction, cinematic HDR contrast, subtle natural film grain, luxury editorial photography aesthetic, ultra-photorealistic rendering, RAW photo quality, breathtaking 8K resolution, no CGI, no illustration, no digital art.

Negative Prompt: cartoon, anime, illustration, CGI, 3D render, painting, plastic skin, wax skin, doll face, over-smoothed skin, beauty filter, blurry face, distorted or different face, bad anatomy, unrealistic facial features, feminine facial structure, flat lighting, unrealistic shadow, oversaturated, oversharpened, low resolution, fake AI look, washed colors, watermark, logo, text, signature, cluttered background, unnatural symmetry

Prompt 2 - For Pose:

Same subject, same chiaroscuro lighting — captured with a subtle dutch tilt camera angle, body angled diagonally, one hand gently touching the fabric near the shoulder, intense direct gaze into the light.

Aspect ratio 4:5.

Girl Main Prompt 1:

Hyper-realistic cinematic 8K close-up portrait of a striking young woman with medium-length, dark brown, slightly wind-swept hair falling naturally across her forehead. Her eyes gaze upward and to the right, catching a sharp diagonal beam of natural light that illuminates the high points of her cheekbone, nose bridge, and jawline, soft natural skin texture adding depth. Naturally toned lips, calm intense expression. She wears a lightweight white silk-blend modest dress with a high, fully covered neckline, realistic fabric texture and natural fold detail.

The rest of her face and the background are cast in deep, dramatic shadow — strong chiaroscuro lighting emphasizing the interplay of light and shadow. Subtle fabric texture visible on her shoulder catching the edge of the light. The image captures a mysterious, introspective mood, with incredible fine detail in her skin, hair strands, and subtle natural reflections in her eyes.
