

“CHATGPT PEACEFUL MOMENTS PROMPTS BY SAJAWAL CREATES”

For Boys:

Prompt No. 1: (Main Prompt)

“Use the face from the reference image exactly — match this person's real facial features, structure, and identity while generating the image with the style, lighting, and composition described below. Ultra-realistic cinematic candid street portrait of a young woman sitting casually on outdoor stone steps in a quiet urban residential neighborhood. Green tree branches overhead filter warm afternoon sunlight, creating natural dappled light, soft sun rays, and subtle cinematic lens flare. A gentle breeze moves her medium-length hair naturally, with individual strands catching the warm rim light.

She has a calm, confident expression with a subtle relaxed smile, one elbow resting on her knee, looking directly into the camera with grounded self-assurance. Her entire face is fully visible and unobstructed, featuring natural skin texture with visible pores, realistic warm skin tones, authentic imperfections, expressive eyes with natural catchlights.

She is dressed in an oversized vintage blue denim jacket with worn texture, embroidered patches, realistic stitching, and authentic fabric folds, layered over a fitted high-neck top, ensuring the chest and collar area remain naturally and fully covered with no visible gap.

The background features classic brownstone buildings, an iron stair railing, leafy green trees, and one softly blurred pedestrian walking in the distance to enhance the authentic candid atmosphere. Warm sunlight creates natural rim lighting around her hair while realistic shadows add depth.

Cinematic rule-of-thirds composition, slightly low eye-level perspective, captured on a professional full-frame camera with a natural 35mm–50mm prime lens look at approximately f/2.0, producing a shallow depth of field with creamy background bokeh while maintaining tack-sharp focus on the subject.

Natural Kodak Portra-inspired color grading with warm golden highlights balanced by cool shadow tones, subtle organic film grain, realistic lens rendering, ultra-detailed hair strands, denim texture, skin pores, and fabric detail. Hyperrealistic, photorealistic, RAW photograph, editorial street photography, authentic lighting, 8K resolution, no CGI, no illustration, no digital art.”
