

“CHATGPT MIRROR SELFIE PROMPTS BY SAJAWAL CREATES”

Main Prompt:

"Reference selfie attached — use the exact same face, identical facial features, same skin tone and texture, same hairstyle exactly as shown in the uploaded photo. Do not alter or generate a new face. Create a hyper-realistic mirror selfie, same pose and same reflection angle as the reference image.

Wearing a black motorsport-style racing jacket featuring bold red and yellow diagonal stripe panels across the chest and sleeves, contrast paneling with a sporty asymmetric design, ribbed black collar and cuffs, realistic embossed zipper details, no visible brand logos, text, or trademark symbols — purely original abstract racing-inspired pattern. Realistic jacket material with authentic texture, natural creases and folds. Black t-shirt underneath visible at the collar, silver rings on the fingers with realistic metal reflections, and a silver chain necklace catching subtle light.

Holding a phone with a beige MagSafe case up to capture the mirror reflection, natural hand grip and finger positioning, phone screen showing a soft realistic camera glow.

Posing in a dimly lit modern bathroom with dark marble walls, subtle natural veining visible in the marble, soft moody ambient lighting — a mix of warm and cool tones creating cinematic contrast, gentle highlights on the jacket and face, deeper shadows in the background for a moody atmosphere.

Ultra-realistic skin texture with visible pores, natural tone variation, no smoothing, no plastic or waxy look. Mirror reflection sharp and clear with authentic glass reflection quality, slight realistic mirror smudges for authenticity. Confident, stylish, cinematic vibe with a calm composed expression, natural body posture as if genuinely captured in a candid moment.

Physically accurate lighting and shadow direction, true-to-life color reproduction, subtle moody color grade with deep shadows and warm-to-cool balance, natural film-like grain, photorealistic, hyperrealistic, high-definition fine detail, tack-sharp focus on face and outfit, RAW photo quality, 8K resolution, no CGI, no illustration, no digital art, no over-processing, looks like an unedited real phone photograph."

Negative Prompt:

"brand logos, text on clothing, visible brand name, trademark symbols, sponsor patches, racing team emblem, blurry face, distorted or different face, different identity, different hairstyle, bad anatomy, deformed hands, extra fingers, distorted phone, unrealistic reflection, mirror distortion, cartoon, anime, illustration, CGI, 3D render, plastic skin, wax skin, over-smoothed skin, beauty filter, flat lighting, unrealistic shadow, oversaturated, overprocessed HDR, oversharpened, low

resolution, noise, compression artifacts, fake AI look, washed out colors, watermark, logo, text, signature, unnatural symmetry"
