

“CHATGPT FILM GRAIN PROMPTS BY SAJAWAL CREATES”

FOR GIRLS:

PROMPT NO: 01

Ultra-realistic cinematic editorial portrait photograph of a young woman, using the uploaded reference photo as the **sole and exact facial identity reference**. Preserve the same person with extremely high identity consistency — identical facial structure, face shape, proportions, eyes, eyebrows, nose, lips, jawline, cheek structure, skin tone, and hairstyle. **NO FACE DRIFT, NO IDENTITY CHANGE, NO FACIAL REINTERPRETATION**. Do not beautify, reshape, age, de-age, or replace any facial features.

She wears a precisely tailored **black turtleneck sweater** layered under a long **charcoal-grey wool trench coat**, paired with straight-cut dark trousers and a slim leather belt. Realistic premium wool and cotton textures, natural fabric weight, authentic seams, folds, creases, and draping. Minimal natural makeup. Preserve realistic skin texture with visible pores, fine details, and subtle natural imperfections. No airbrushed, waxy, or plastic skin.

POSE & EXPRESSION:

Body positioned at approximately a **70-degree side angle toward the camera**, with one shoulder naturally dropped slightly lower than the other. Head gently turned toward the lens. Calm, mysterious, introspective gaze directly toward the camera. One hand raised naturally near the temple as if gently adjusting a loose strand of hair. Anatomically correct hands and fingers. Relaxed posture and natural body language. Quiet confidence, intellectual elegance, subtle mystery. **No smile, lips softly closed.**

COMPOSITION:

Vertical **4:5 cinematic composition**. Subject positioned in the **lower-center third of the frame**, surrounded by substantial negative space and darkness. Maintain an intentionally spacious, atmospheric composition.

A single sharp diagonal beam of light travels visibly from the upper-right corner toward the lower-left portion of the frame, striking the woman at an angle. The beam illuminates **only one side of her face, shoulder, and upper body**, while the opposite side gradually disappears into deep, rich shadow.

The light must create a clearly readable **diagonal light-versus-shadow division**, with realistic hard-edged shadow transitions. Do not make the entire subject evenly illuminated.

Dark foreground elements partially obscure the outer edges of the frame, appearing like irregular torn silhouettes of darkness. These elements subtly frame the subject without covering her face or important details, creating a voyeuristic, cinematic sense of depth.

BACKGROUND:

Behind the subject is a richly detailed, weathered **vintage Japanese mural wall**, featuring faded retro illustrated figures, traditional Japanese calligraphy characters, muted reds, dusty teals, ochres, and aged earthy tones. Visible weathering, peeling pigment, faded ink, cracks, stains, and authentic aged-paper/plaster texture. The mural feels historical and archival rather than modern or decorative.

The background should remain slightly softened by shallow depth of field while retaining enough detail to communicate the museum-archive environment.

LIGHTING:

One **hard spotlight positioned above and to the upper-right of the subject**, producing a strong diagonal shaft of light from upper right toward lower left. Very limited ambient fill. Deep crushed blacks and dramatic tonal separation. Warm amber highlights gently catching the illuminated skin, cheekbone, hair strands, and wool texture.

Realistic cinematic shadow falloff. The shadowed side of the face must retain subtle natural detail without becoming artificially bright. Strong chiaroscuro, controlled highlights, realistic light scattering, subtle atmospheric depth.

CAMERA & LENS:

Eye-level camera position. Medium-close environmental portrait framing. Full-frame photographic look. **85mm portrait lens**, approximately **f/1.8–f/2.2**, creating natural compression and shallow depth of field. Slight camera distance from the subject to preserve environmental storytelling. Precise focus on the visible eye and facial features. Background naturally falls out of focus.

COLOR & FILM TREATMENT:

Kodak Portra 400-inspired color rendering. Warm, natural skin tones. Muted and slightly desaturated blacks. Subtle earthy color palette. Fine analog film grain. Gentle cinematic halation around the brightest edge of the spotlight. Soft highlight roll-off, realistic tonal range, restrained contrast in illuminated areas while maintaining deep cinematic shadows.

MOOD & AESTHETIC:

Solitary, melancholic, mysterious, intellectual, introspective, museum-core atmosphere. Quiet nighttime feeling. Understated luxury. Sophisticated editorial fashion photography. Timeless analog-film aesthetic. Feels like a frame from an expensive independent art film.

IMAGE QUALITY:

Photorealistic professional photography, authentic human skin, realistic pores, natural hair strands, physically accurate materials, realistic hands and anatomy, natural proportions,

cinematic depth, highly detailed textures, premium editorial photography, masterpiece-level detail, 8K-quality rendering, analog film still aesthetic.

STRICT REQUIREMENTS:

Preserve the uploaded person's identity exactly. Do not change the face, hairstyle, facial proportions, body proportions, or defining characteristics. Keep the composition spacious and dark. Keep the diagonal spotlight clearly visible and directional. Keep the background vintage Japanese mural-inspired and weathered. No additional people.

ASPECT RATIO: 4:5

NEGATIVE PROMPT:

anime, cartoon, CGI look, illustration, painting, 3D render, smiling, open mouth, exaggerated expression, beauty filter, airbrushed skin, plastic skin, waxy skin, excessive makeup, facial reshaping, different face, identity mismatch, face drift, altered facial structure, changed hairstyle, overexposed lighting, flat lighting, frontal lighting, evenly illuminated subject, weak shadows, excessive ambient fill, neon lighting, cyberpunk, HDR overload, oversaturated colors, artificial skin, unrealistic pores, distorted anatomy, bad hands, malformed fingers, extra fingers, missing fingers, extra limbs, duplicate person, duplicate body, distorted clothing, blurry face, soft facial focus, low resolution, cluttered composition, excessive background detail, text, typography, logo, watermark, frame, border.

PROMPT NO: 02

Over-the-shoulder glance, low angle

Ultra-realistic cinematic portrait photograph of a young woman, using the uploaded reference photo as the exact face reference — same facial structure, proportions, eyes, nose, lips, skin tone, and hairstyle as the reference image, high identity consistency, this is the same person. She wears a tailored black turtleneck sweater layered under a long charcoal-grey wool trench coat, paired with straight-cut dark trousers and a slim leather belt. Minimal, natural makeup, realistic skin texture with visible pores and subtle imperfections.

****Pose/Action:**** standing with her back partially turned to the camera, looking back over her shoulder with a calm, piercing gaze, one hand resting lightly on the collar of her coat, weight shifted onto one leg, relaxed posture.

****Camera angle:**** slightly low angle, shot from waist height looking upward, medium-close framing, subject positioned lower-center of frame.

****Composition:**** heavy negative space and darkness around her, diagonal spotlight from upper right to lower left illuminating one side of her body, foreground torn-shadow framing.

****Background:**** weathered vintage Japanese mural wall, faded retro illustrated figures, traditional calligraphy, muted reds/teals/ochres, aged paper texture, museum-archive atmosphere.

****Lighting:**** hard single spotlight source, deep crushed blacks, warm amber highlights, minimal ambient fill, realistic shadow falloff.

****Camera & lens:**** shallow depth of field (f/1.8–f/2.2), 85mm lens compression, centered cinematic framing.

****Color & film treatment:**** Kodak Portra 400 color science, analog film grain, muted desaturated blacks, warm skin tones, subtle halation.

****Mood/Style:**** solitary, melancholic, museum-core, quiet intelligence, luxury editorial photography, photorealistic, natural fabric texture, masterpiece quality, 8K detail.

****Negative prompt:**** anime, cartoon, smiling, overexposed lighting, flat lighting, extra limbs, distorted hands, bad anatomy, blurry face, low quality, oversaturated colors, neon, cyberpunk, HDR overload, cluttered composition, duplicate person, watermark, plastic skin, different face

PROMPT NO: 03

Close-up, hand near face, high angle

Ultra-realistic cinematic portrait photograph of a young woman, using the uploaded reference photo as the exact face reference — same facial structure, proportions, eyes, nose, lips, skin tone, and hairstyle as the reference image, high identity consistency, this is the same person.

She wears a tailored black turtleneck sweater layered under a long charcoal-grey wool trench coat, paired with straight-cut dark trousers and a slim leather belt. Minimal, natural makeup, realistic skin texture with visible pores and subtle imperfections.

****Pose/Action:**** close-up, chin tilted slightly downward, eyes looking up toward the camera, fingertips gently touching her jawline, lips softly parted in quiet contemplation, still and introspective.

****Camera angle:**** slightly high angle looking down, tight close-up framing on face and shoulders, intimate and cinematic.

****Composition:**** subject centered but low in frame, dark negative space filling most of the image, diagonal spotlight from upper right to lower left crossing her face, foreground torn-shadow vignette.

****Background:**** weathered vintage Japanese mural wall, faded retro illustrated figures, traditional calligraphy, muted reds/teals/ochres, aged paper texture, softly blurred behind her.

****Lighting:**** hard single spotlight source, deep crushed blacks, warm amber highlights catching cheekbone and jaw, minimal ambient fill, realistic shadow falloff.

****Camera & lens:**** very shallow depth of field (f/1.4–f/1.8), 85mm lens compression, tight cinematic close-up framing.

****Color & film treatment:**** Kodak Portra 400 color science, analog film grain, muted desaturated blacks, warm skin tones, subtle halation around spotlight edge.

****Mood/Style:**** solitary, melancholic, museum-core, quiet intelligence, luxury editorial photography, photorealistic, natural fabric texture, masterpiece quality, 8K detail.

****Negative prompt:**** anime, cartoon, smiling, overexposed lighting, flat lighting, extra limbs, distorted hands, bad anatomy, blurry face, low quality, oversaturated colors, neon, cyberpunk, HDR overload, cluttered composition, duplicate person, watermark, plastic skin, different face

PROMPT NO: 04

Leaning against wall, side angle

Ultra-realistic cinematic portrait photograph of a young Woman, using the uploaded reference photo as the exact face reference — same facial structure, proportions, eyes, nose, lips, skin tone, and hairstyle as the reference image, high identity consistency, this is the same person. He wears a tailored black button-up shirt layered under an open dark-olive wool overcoat, paired with straight-cut charcoal trousers and a slim leather belt. Minimal grooming, natural stubble optional, realistic skin texture with visible pores and subtle imperfections.

****Pose/Action:**** leaning one shoulder casually against the mural wall, arms loosely crossed, head tilted slightly downward with eyes cutting up toward the camera, calm and unbothered expression, one foot crossed over the other.

****Camera angle:**** side-on three-quarter angle, eye-level, medium-shot framing, subject positioned lower-left of frame.

****Composition:**** heavy negative space and darkness around him, diagonal spotlight from upper right to lower left illuminating one side of his body, foreground torn-shadow framing at edges.

****Background:**** weathered vintage Japanese mural wall, faded retro illustrated figures, traditional calligraphy, muted reds/teals/ochres, aged paper texture, quiet museum-archive atmosphere.

****Lighting:**** hard single spotlight source, deep crushed blacks, warm amber highlights, minimal ambient fill, realistic shadow falloff.

****Camera & lens:**** shallow depth of field (f/1.8–f/2.2), 85mm lens compression, cinematic framing.

****Color & film treatment:**** Kodak Portra 400 color science, analog film grain, muted desaturated blacks, warm skin tones, subtle halation.

****Mood/Style:**** solitary, melancholic, museum-core, quiet intelligence, luxury editorial photography, photorealistic, natural fabric texture, masterpiece quality, 8K detail.

****Negative prompt:**** anime, cartoon, smiling, overexposed lighting, flat lighting, extra limbs, distorted hands, bad anatomy, blurry face, low quality, oversaturated colors, neon, cyberpunk, HDR overload, cluttered composition, duplicate person, watermark, plastic skin, different face

FOR BOYS:

PROMPT NO: 01

Adjusting coat collar, close-up high angle

Ultra-realistic cinematic portrait photograph of a young man, using the uploaded reference photo as the exact face reference — same facial structure, proportions, eyes, nose, lips, skin tone, and hairstyle as the reference image, high identity consistency, this is the same person.

He wears a tailored black button-up shirt layered under an open dark-olive wool overcoat, paired with straight-cut charcoal trousers and a slim leather belt. Minimal grooming, realistic skin texture with visible pores and subtle imperfections.

****Pose/Action:**** close-up, one hand raised adjusting the collar of his coat, head slightly tilted, eyes narrowed in quiet focus looking slightly off-camera, jaw relaxed, contemplative stillness.

****Camera angle:**** slightly high angle looking down, tight close-up framing on face, hand, and shoulders, intimate and cinematic.

****Composition:**** subject centered but low in frame, dark negative space filling most of the image, diagonal spotlight from upper right to lower left crossing his face and hand, foreground torn-shadow vignette.

****Background:**** weathered vintage Japanese mural wall, faded retro illustrated figures, traditional calligraphy, muted reds/teals/ochres, aged paper texture, softly blurred behind him.

****Lighting:**** hard single spotlight source, deep crushed blacks, warm amber highlights catching cheekbone and hand, minimal ambient fill, realistic shadow falloff.

****Camera & lens:**** very shallow depth of field (f/1.4–f/1.8), 85mm lens compression, tight cinematic close-up framing.

****Color & film treatment:**** Kodak Portra 400 color science, analog film grain, muted desaturated blacks, warm skin tones, subtle halation around spotlight edge.

****Mood/Style:**** solitary, melancholic, museum-core, quiet intelligence, luxury editorial photography, photorealistic, natural fabric texture, masterpiece quality, 8K detail.

****Negative prompt:**** anime, cartoon, smiling, overexposed lighting, flat lighting, extra limbs, distorted hands, bad anatomy, blurry face, low quality, oversaturated colors, neon, cyberpunk, HDR overload, cluttered composition, duplicate person, watermark, plastic skin, different face

PROMPT NO: 02

Leaning against wall, side angle

Ultra-realistic cinematic portrait photograph of a young man, using the uploaded reference photo as the exact face reference — same facial structure, proportions, eyes, nose, lips, skin tone, and hairstyle as the reference image, high identity consistency, this is the same person.

He wears a tailored black button-up shirt layered under an open dark-olive wool overcoat, paired with straight-cut charcoal trousers and a slim leather belt. Minimal grooming, realistic skin texture with visible pores and subtle imperfections.

****Pose/Action:**** leaning one shoulder casually against the mural wall, arms loosely crossed, head tilted slightly downward with eyes cutting up toward the camera, calm and unbothered expression.

****Camera angle:**** side three-quarter angle, eye-level, medium-close framing from waist up, face clearly sharp and well-lit, subject positioned lower-left of frame.

****Composition:**** negative space and darkness around him but face remains the clear focal point, diagonal spotlight from upper right to lower left illuminating one side of his face and body, foreground torn-shadow framing at edges.

****Background:**** weathered vintage Japanese mural wall, faded retro illustrated figures, traditional calligraphy, muted reds/teals/ochres, aged paper texture, quiet museum-archive atmosphere, softly out of focus behind him.

****Lighting:**** hard single spotlight source, deep crushed blacks, warm amber highlights on face, minimal ambient fill, realistic shadow falloff.

****Camera & lens:**** shallow depth of field (f/1.8–f/2.2), 85mm lens compression, cinematic framing.

****Color & film treatment:**** Kodak Portra 400 color science, analog film grain, muted desaturated blacks, warm skin tones, subtle halation.

****Mood/Style:**** solitary, melancholic, museum-core, quiet intelligence, luxury editorial photography, photorealistic, natural fabric texture, masterpiece quality, 8K detail.

****Negative prompt:**** anime, cartoon, smiling, overexposed lighting, flat lighting, extra limbs, distorted hands, bad anatomy, blurry face, small unclear face, low quality, oversaturated colors, neon, cyberpunk, HDR overload, cluttered composition, duplicate person, watermark, plastic skin, different face

PROMPT NO: 03

Hands in pockets, direct gaze

Ultra-realistic cinematic portrait photograph of a young man, using the uploaded reference photo as the exact face reference — same facial structure, proportions, eyes, nose, lips, skin tone, and hairstyle as the reference image, high identity consistency, this is the same person.

He wears a tailored black button-up shirt layered under an open dark-olive wool overcoat, paired with straight-cut charcoal trousers and a slim leather belt. Minimal grooming, realistic skin texture.

****Pose/Action:**** standing still, both hands tucked into coat pockets, shoulders squared toward the camera, chin slightly raised, direct and intense gaze straight into the lens, stoic expression.

****Camera angle:**** slight low angle from chest height looking up, medium-close portrait framing from chest up, face large, sharp, and clearly visible, centered in frame.

****Composition:**** dark negative space around him but face and upper body remain the clear focal point, diagonal spotlight from upper right to lower left, foreground torn-shadow framing at edges.

****Background:**** weathered vintage Japanese mural wall, faded retro illustrated figures, traditional calligraphy, muted reds/teals/ochres, aged paper texture, softly blurred behind him.

****Lighting:**** hard single spotlight source, deep crushed blacks, warm amber highlights on face, minimal ambient fill, realistic shadow falloff.

****Camera & lens:**** shallow depth of field (f/1.8–f/2), 85mm lens compression, tight cinematic portrait framing.

****Color & film treatment:**** Kodak Portra 400 color science, analog film grain, muted desaturated blacks, warm skin tones, subtle halation.

****Mood/Style:**** solitary, melancholic, museum-core, quiet intelligence, luxury editorial photography, photorealistic, natural fabric texture, masterpiece quality, 8K detail.

****Negative prompt:**** anime, cartoon, smiling, overexposed lighting, flat lighting, extra limbs, distorted hands, bad anatomy, blurry face, small unclear face, low quality, oversaturated colors, neon, cyberpunk, HDR overload, cluttered composition, duplicate person, watermark, plastic skin, different face

PROMPT NO: 04

Glancing back over shoulder, medium framing

Ultra-realistic cinematic portrait photograph of a young man, using the uploaded reference photo as the exact face reference — same facial structure, proportions, eyes, nose, lips, skin tone, and hairstyle as the reference image, high identity consistency, this is the same person.

He wears a tailored black button-up shirt layered under an open dark-olive wool overcoat, paired with straight-cut charcoal trousers and a slim leather belt. Minimal grooming, realistic skin texture.

Pose/Action: body turned mostly away from camera, upper torso and head twisted back over his shoulder to look directly into the lens, coat draped naturally with the motion, expression calm and unreadable, one hand loosely resting near the mural wall beside him.

Camera angle: rear three-quarter angle, eye-level, medium-close framing from shoulders up, face fully visible, sharp, and well-lit despite the turned body, subject positioned slightly right of center.

Composition: dark negative space surrounding him but face remains clearly the focal point, diagonal spotlight from upper right to lower left, foreground torn-shadow framing at edges.

Background: weathered vintage Japanese mural wall, faded retro illustrated figures, traditional calligraphy, muted reds/teals/ochres, aged paper texture, softly blurred behind him.

Lighting: hard single spotlight source, deep crushed blacks, warm amber highlights on face, minimal ambient fill, realistic shadow falloff.

Camera & lens: shallow depth of field ($f/1.8$ – $f/2.2$), 85mm lens compression, cinematic framing.

Color & film treatment: Kodak Portra 400 color science, analog film grain, muted desaturated blacks, warm skin tones, subtle halation.

Mood/Style: solitary, melancholic, museum-core, quiet intelligence, luxury editorial photography, photorealistic, natural fabric texture, masterpiece quality, 8K detail.

Negative prompt: anime, cartoon, smiling, overexposed lighting, flat lighting, extra limbs, distorted hands, bad anatomy, blurry face, small unclear face, low quality, oversaturated colors, neon, cyberpunk, HDR overload, cluttered composition, duplicate person, watermark, plastic skin, different face.
