

“CHATGPT TINY SET PROMPTS BY SAJAWAL CREATES”

FOR GIRLS:

PROMPT NO: 01

Giant girl filmmaker + 2 miniature girls:

Use the uploaded reference image(s) to preserve the exact facial features, face shape, eye color, and skin tone of the woman/women — maintain full likeness accuracy, do not alter identity.

A hyper-realistic cinematic photograph of the reference woman as a giant filmmaker, sitting at a professional studio desk, carefully adjusting a miniature vintage film camera mounted on a small tripod. Warm blonde hair styled in a loose low ponytail with face-framing strands, natural soft makeup, intensely focused expression looking down at the camera. Realistic skin texture with natural pores and soft studio-light sheen, no airbrushed/plastic look. She wears a modest high-neck long-sleeve blouse in dusty blue textured silk, fully covering shoulders and arms, with visible natural fold lines and fabric grain.

Beside the camera stand two tiny elegant miniature women (same faces, matched to reference), each roughly 15cm tall, standing together on the studio table like models on set. Both wear flowing modest long-sleeve gowns with high necklines in soft pastel blue and dusty rose tones, matching textured fabric, visible drape and natural creases, calm confident postures, one with a low bun and one with soft loose waves, minimal jewelry.

The vintage film camera is dark brushed metal, mounted on a small tripod with visible screws and worn rig details for realism.

Surrounding the scene: professional softbox and LED studio lights on stands (softly blurred in background), coiled black cables, stacked vintage film reels, and a clapperboard with readable "SCENE / TAKE / ROLL" text in the foreground.

Lighting: dramatic soft key light from the left, subtle rim light separating hair and shoulders from the dark background, shallow depth of field, sharp focus on the giant woman and camera, background softly blurred bokeh.

Style: 85mm lens look, f/1.8 aperture, ultra-detailed skin and fabric textures, realistic hand anatomy with natural grip on camera dial, photorealistic 8K, volumetric lighting, cinematic cool blue-gray color grade with warm skin highlights, no CGI/plastic look, professional studio photography.

PROMPT NO: 02

Adjusting studio light:

Use the uploaded reference image to preserve the exact facial features, face shape, eye color, and skin tone of the woman — maintain full likeness accuracy, do not alter her identity.

A hyper-realistic cinematic photograph of the reference woman as a giant filmmaker, standing at a professional studio desk, reaching out to gently adjust a small softbox light stand positioned near a miniature film set. Hair styled in a loose low bun, natural soft makeup, calm confident expression as she looks toward the light. Realistic skin texture with natural pores and soft studio sheen, no airbrushed look. She wears a modest turtleneck-style top in deep charcoal textured knit, fully covering shoulders and arms, with visible natural fabric texture and folds.

Beside the miniature light stand sits the tiny elegant version of the same woman (same face, matched to reference), roughly 15cm tall, seated gracefully on a small stool as if waiting for her close-up. She wears a flowing modest long-sleeve dress with a high neckline, fully covering shoulders and arms, matching textured fabric, calm elegant posture, soft loose waves, minimal jewelry.

Surrounding the scene: a miniature vintage film camera on a tripod nearby, coiled black cables, stacked vintage film reels, a clapperboard with readable "SCENE / TAKE / ROLL" text, and additional softbox lights softly blurred in the background.

Lighting: dramatic soft key light from the right, warm rim light on her hand and the light stand, shallow depth of field, sharp focus on the giant woman's hand and the miniature stool scene, background softly blurred bokeh.

Style: 85mm lens look, f/1.8 aperture, ultra-detailed skin and fabric textures, realistic hand anatomy, photorealistic 8K, volumetric lighting, cinematic cool blue-gray color grade with warm skin highlights, no CGI/plastic look, professional studio photography.

FOR BOYS:

PROMPT NO: 01

Reviewing footage on monitor

Use the uploaded reference image to preserve the exact facial features, face shape, eye color, and skin tone of the man — maintain full likeness accuracy, do not alter his identity.

A hyper-realistic cinematic close-up photograph of the reference man as a giant filmmaker, leaning in closely to review footage on a tiny vintage director's monitor placed on the studio desk. Short neatly styled hair, light stubble, natural skin texture with soft glow from the monitor light, thoughtful focused expression, slight confident smile as he watches the miniature screen. He wears a deep navy blazer over a plain shirt, realistic fabric texture and natural creases.

On the tiny monitor screen, a faint glimpse of the miniature version of the same man (same face, matched to reference) is visible, as if footage of him walking on set was just filmed — subtle motion blur for realism.

Surrounding the scene: the miniature vintage film camera and tripod slightly out of focus in the background, coiled cables, film reels, and a clapperboard on the desk edge.

Lighting: soft cool blue glow from the monitor screen mixing with warm studio key light, dramatic shadow play across his face, shallow depth of field, sharp focus on his eyes and the monitor, background softly blurred bokeh.

Style: 85mm lens look, f/1.8 aperture, ultra-detailed skin and fabric textures, realistic hand anatomy near the monitor, photorealistic 8K, volumetric lighting, cinematic cool-toned color grade with warm skin highlights, no CGI/plastic look, professional studio photography.

PROMPT NO: 02

Adjusting studio light, miniature scene with clapperboard

Use the uploaded reference image to preserve the exact facial features, face shape, eye color, and skin tone of the man — maintain full likeness accuracy, do not alter his identity.

A hyper-realistic cinematic photograph of the reference man as a giant filmmaker, standing at a professional studio desk, reaching out to carefully adjust a small softbox light stand angled toward a miniature film set. Short neatly styled hair, light stubble, natural skin texture with visible pores, calm focused expression as he looks toward the light. He wears a deep olive-green textured cotton jacket over a plain shirt, sleeves slightly rolled at the forearm, fabric with visible natural fold lines and grain catching the light realistically.

Near the miniature light stand, a tiny miniature version of the same man (same face, matched to reference), roughly 15cm tall, kneels down holding a small clapperboard with readable "SCENE / TAKE / ROLL" text, as if about to call action on set. He wears a tailored charcoal shirt with dark trousers, realistic fabric texture, natural creases, confident focused posture, short neat hairstyle.

Surrounding the scene: a miniature vintage film camera on a tripod nearby, coiled black cables, stacked vintage film reels, and additional softbox lights softly blurred in the background.

Lighting: dramatic soft key light from the right, warm rim light on his hand and the light stand, shallow depth of field, sharp focus on the giant man's hand and the miniature kneeling figure, background softly blurred bokeh.

Style: 85mm lens look, f/1.8 aperture, ultra-detailed skin and fabric textures, realistic hand anatomy with natural grip on the light stand, photorealistic 8K, volumetric lighting, cinematic cool blue-gray color grade with warm skin highlights, no CGI/plastic look, professional studio photography.
