

“GEMINI LOONEY TUNES PROMPTS BY SAJAWAL CREATES”

FOR GIRLS

PROMPT NO: 01

REFERENCE FACE — MAXIMUM IDENTITY ACCURACY: Use the uploaded reference image as the exact facial identity reference for the woman positioned in the center/front. Reproduce her face with maximum possible likeness and realism. Preserve her exact facial structure, face shape, eyes, eyebrows, nose, lips, jawline, cheek structure, skin tone, hairstyle, hairline, and distinctive facial characteristics. Do not create a new face, generic face, or similar-looking person. Do not change or reinterpret her identity. The final result must clearly look like the same real person from the uploaded reference photo.

Ultra-realistic 4:5 vertical group selfie photograph of the reference woman with Bugs Bunny, Daffy Duck, Elmer Fudd, Yosemite Sam, Tweety, and Sylvester inside a professional creative studio.

The reference woman is positioned prominently in the center/front of the frame. She is wearing an elegant pastel pink high-neck blouse with a completely covered neckline, long sleeves, refined tailoring, and tailored high-waisted trousers. The outfit is sophisticated, modest, classy, and fully respectable, with no cleavage, no low neckline, no transparent fabric, and no excessive skin exposure. The clothing should look naturally fitted and professionally styled without being revealing.

She has a natural, confident, cheerful and playful expression, with a genuine subtle smile, lively eyes, and an attractive positive vibe. Her expression should feel spontaneous and natural, never forced, distorted, or overly exaggerated. Her face must remain highly detailed, realistic, sharp, and recognizable.

IMPORTANT: Porky Pig is completely removed from the scene and must NOT appear anywhere in the image. Do not generate Porky Pig, pig characters, pig-like characters, or any duplicate character.

The woman and all characters are posing closely together for a fun, spontaneous studio selfie. The Looney Tunes characters have playful, silly, exaggerated expressions while the reference woman maintains a natural, charismatic expression.

LIVE-ACTION CHARACTER REALISM: Bugs Bunny, Daffy Duck, Elmer Fudd, Yosemite Sam, Tweety, and Sylvester must appear as highly realistic live-action versions while remaining instantly recognizable. Realistic fur, feathers, skin, hair, clothing, textures, physically accurate shadows, reflections, and natural interaction with the studio environment. No flat cartoon appearance and no obvious CGI/plastic look.

CAMERA: Extreme wide-angle 13mm lens, high camera angle, outstretched-arm selfie perspective, close group composition. Realistic 13mm wide-angle perspective with no fisheye distortion. Keep the reference woman's face natural and undistorted, especially around the eyes, nose, mouth, and jaw.

LIGHTING: Premium cinematic studio lighting, soft flattering key light, subtle fill light, realistic rim lighting, natural shadows and highlights, consistent lighting across the woman and all characters, realistic skin and fur illumination.

IMAGE QUALITY: Ultra-photorealistic, extremely detailed, natural skin texture and pores, realistic eyes, individual hair and fur detail, sharp facial features, realistic materials, high dynamic range, cinematic depth, professional commercial photography, HD, 4K UHD quality, ultra-sharp, clean and detailed image.

FINAL LOOK: The final image should look like a real photograph captured in an actual professional studio, not an AI-generated image. The reference woman's face must remain the strongest identity priority, with maximum facial likeness, realistic skin texture, natural expression, and authentic photographic detail.

NEGATIVE PROMPT: Porky Pig, pig, pig character, extra characters, duplicate characters, different face, generic face, altered identity, face drift, identity change, cartoon face, artificial face, CGI look, plastic skin, illustration, anime, painting, low resolution, blurry face, distorted face, warped facial features, fisheye distortion, unnatural smile, awkward expression, deformed anatomy, extra fingers, duplicate limbs, inconsistent lighting, unrealistic shadows, revealing clothing, low neckline, deep neckline, cleavage, open collar, transparent clothing, see-through fabric, excessive skin exposure.

FOR BOYS

PROMPT NO: 02

REFERENCE FACE — MAXIMUM IDENTITY ACCURACY: Use the uploaded reference image as the exact facial identity reference for the man positioned in the center/front. Reproduce his face with maximum possible likeness and realism. Preserve his exact facial structure, face shape, eyes, eyebrows, nose, lips, jawline, cheek structure, skin tone, hairstyle, hairline, and distinctive facial characteristics. Do not create a new face, generic face, or similar-looking person. Do not change or reinterpret his identity. The final result must clearly look like the same real person from the uploaded reference photo.

Ultra-realistic 4:5 vertical group selfie photograph of the reference man with Bugs Bunny, Daffy Duck, Elmer Fudd, Yosemite Sam, Tweety, and Sylvester inside a professional creative studio.

The reference man is positioned prominently in the center/front of the frame, wearing a pale pink t-shirt. He has a natural, confident, cheerful and playful expression, with a genuine subtle smile, lively eyes, and an attractive positive vibe. His expression should feel spontaneous and natural, never forced, distorted, or overly exaggerated. His face must remain highly detailed, realistic, sharp, and recognizable.

IMPORTANT: Porky Pig is completely removed from the scene and must NOT appear anywhere in the image. Do not generate Porky Pig, pig characters, pig-like characters, or any duplicate character.

The man and all characters are posing closely together for a fun, spontaneous studio selfie. The Looney Tunes characters have playful, silly, exaggerated expressions while the reference man maintains a natural, charismatic expression.
