

# “CHATGPT BURNING CALM PROMPTS BY SAJAWAL CREATES”

## FOR GIRLS:

### PROMPT:

Use the exact face provided in the reference image, keeping facial features, skin tone, and identity consistent. A woman sits motionless on a wooden swing above a grassy shoreline, wearing a long, full-length teal terry-cloth robe that fully covers her legs down to her ankles, oversized white oval sunglasses, curlers, and flip-flops, with a cigarette held between her lips. The swing's ropes and seat are engulfed in bright orange flames, sending translucent gray smoke upward while the subject remains centered and expressionless. Cool overcast daylight evenly illuminates the pale sea and sky, contrasting with the fire's warm emissive glow and subtle specular highlights on the glasses. Dark leafy branches frame the upper edge, the calm water forms a hazy middle ground, and the grass anchors the foreground in a vertically composed surreal editorial photograph. Ultra-realistic, hyper-detailed skin texture and fabric weave, shot in 4K HD clarity, sharp focus, professional editorial photography quality.

- **Style:** Surrealist editorial photography, cinematic photorealism, ultra-realistic 4K HD render
- **Key elements:** Reference face, woman in full-length robe (legs fully covered), flaming swing, hair curlers, cigarette, seashore
- **Lighting:** Overcast frontal daylight with warm firelight from below and sides, cool-neutral color temperature
- **Camera:** Full-body portrait, 50mm lens, eye-level angle, shallow depth of field, high resolution 4K output
