

“CHATGPT INSTA MOOD PROMPTS BY SAJAWAL CREATES”

FOR GIRLS:

PROMPT:

Use uploaded reference image for facial identity — match face shape, skin tone, eyes, nose, lips, and hair exactly from the reference photo of the girl. Preserve facial identity 100% accurately.

Ultra-realistic photo composite of the reference girl breaking out of an Instagram post frame, viewed from a high top-down angle with strong 10mm fisheye lens distortion applied only to the person (exaggerated large head, shrinking smaller toward the body and feet) — the frame itself remains straight and undistorted.

Pose: Standing confidently, both hands gripping the top edges of the white Instagram frame, arms raised and bent at the elbows, upper body and head emerging out of the frame while lower body remains partially inside.

Face & Expression: Young woman, confident, slightly tilted-up gaze looking toward camera, calm neutral expression, wearing dark black sunglasses (kala chashma) reflecting subtle light, black baseball cap tilted slightly back showing dark wavy hair and bangs framing her face.

Outfit: Purple-blue graffiti-print puffer jacket with bold pink/purple text patterns, worn open over a plain black crew-neck t-shirt, dark jeans, white sneakers.

Jewelry: Double-layered gold chain necklace, small gold hoop earrings.

Background: Solid bright yellow/mustard background, studio-lit, no texture or gradient.

Instagram Frame UI details: White frame border shaped like an Instagram post — top-left corner shows a small circular profile picture using the attached "S" hexagon logo (orange-to-yellow gradient diagonal bars on black background) as the DP image, username "sajawal creates" in bold with a blue verified checkmark next to it, three-dot

menu icon (•••) on the top-right; bottom of the frame shows Instagram action icons — red filled heart, comment bubble, share/send arrow icon, and bookmark icon on the far right, evenly spaced.

Lighting & Shadows: Single soft overhead light source, natural diffused shadow cast directly beneath the subject and frame onto the yellow floor, subtle rim light on jacket edges for realism.

Style: Hyper-realistic, high-resolution photography, sharp focus, professional studio composite, 8k detail, no cartoon or illustration effects.

FOR BOYS:

PROMPT:

- Use uploaded reference image for facial identity — match face shape, skin tone, eyes, nose, lips, and hair exactly from the reference photo of the boy. Preserve facial identity 100% accurately.
- Ultra-realistic photo composite of the reference boy breaking out of an Instagram post frame, viewed from a high top-down angle with strong 10mm fisheye lens distortion applied only to the person (exaggerated large head, shrinking smaller toward the body and feet) — the frame itself remains straight and undistorted.
- **Pose:** Standing confidently, both hands gripping the top edges of the white Instagram frame, arms raised and bent at the elbows, upper body and head emerging out of the frame while lower body remains partially inside.
- **Face & Expression:** Young man, confident, slightly tilted-up gaze looking toward camera, calm neutral expression, wearing dark black sunglasses (kala chashma) reflecting subtle light, black baseball cap tilted slightly back showing short/textured dark hair framing his face.
- **Outfit:** Purple-blue graffiti-print puffer jacket with bold pink/purple text patterns, worn open over a plain black crew-neck t-shirt, dark jeans, white sneakers.
- **Jewelry:** Gold chain necklace, small stud earring (optional).
- **Background:** Solid bright yellow/mustard background, studio-lit, no texture or gradient.
- **Instagram Frame UI details:** White frame border shaped like an Instagram post — top-left corner shows a small circular profile picture using the attached "S" hexagon logo (orange-to-yellow gradient diagonal bars on black background) as the DP image, username "sajawal creates" in bold with a blue verified checkmark next to it, three-dot menu icon (•••) on the top-right; bottom of the frame shows Instagram action icons — red filled heart, comment bubble, share/send arrow icon, and bookmark icon on the far right, evenly spaced.

- **Lighting & Shadows:** Single soft overhead light source, natural diffused shadow cast directly beneath the subject and frame onto the yellow floor, subtle rim light on jacket edges for realism.
- **Style:** Hyper-realistic, high-resolution photography, sharp focus, professional studio composite, 8k detail, no cartoon or illustration effects.
