

“CHATGPT REAL SHADOW 2 PROMPTS BY SAJAWAL CREATES”

FOR GIRLS:

PROMPT NO: 01

WOMAN, Peaceful Reading on Chair / Shadow Running Freely (Deep Magenta-Rose Background)

Reference photo attached — preserve exact same face, features, skin tone, hairstyle, body proportions, identity unchanged. Vertical ultra-realistic editorial photograph, visual irony concept, vast negative space.

Subject: a woman seated calmly on a simple wooden chair, legs crossed, open book resting on her lap, gentle content expression, relaxed still posture. Wearing a modest full-length knit sweater dress falling below the knee, fully covering both legs, paired with opaque tights, ankle socks, flats — realistic fabric texture, conservative styling, no skin exposed below the hem.

Background: flat solid deep magenta-rose studio backdrop (rich saturated berry-pink tone), matte texture with subtle richness, seamless floor, no horizon, large negative space, bold high-contrast editorial punch.

Shadow concept: ONE continuous shadow from where she meets the chair/floor, rising into her silhouette but opposite emotion — mid-run, arms pumping, hair flying, full sprint captured in motion, wild and unrestrained energy against her calm stillness. Shadow stays connected at contact point, no duplicates, realistic silhouette only.

Lighting: soft shadowless flat light on subject, natural skin texture, no smoothing; separate hard spotlight for crisp wall silhouette with soft edge glow. Warm jewel-tone cinematic grade, tender yet wistful.

Ultra-photorealistic, RAW, 8K, DSLR depth of field, real materials and light physics.

--no text, watermark, clutter --ar 4:5 --style raw --v 6.1

Negative: cartoon, 3D render, CGI, illustration, plastic skin, contact shadow, duplicate/floating shadow, different face, altered identity, blurry face, deformed hands, exposed legs, bare legs, short dress, watermark, text

PROMPT NO: 02

WOMAN, Warm Genuine Hug-Pose / Shadow Turned Away, Walking Off (Deep Wine-Burgundy Background)

Reference photo attached — preserve exact same face, features, skin tone, hairstyle, body proportions, identity unchanged. Vertical ultra-realistic editorial photograph, visual irony concept, vast negative space.

Subject: a woman standing with arms open wide as if welcoming someone into a hug, warm genuine smile, head tilted slightly, inviting open body language. Wearing a soft cardigan over a modest knee-length or longer dress, fully covering the legs, flats — realistic fabric texture and creases, no skin exposed below the hem.

Background: flat solid deep wine-burgundy studio backdrop (rich saturated maroon tone), matte texture, seamless floor, no horizon, large negative space, warm but bold high-contrast editorial punch.

Shadow concept: ONE continuous shadow from her feet, rising into her exact silhouette but opposite emotion — turned away in profile, walking off toward the edge of the wall, shoulders slumped, arms crossed tightly over her own body instead of open, a posture of quiet withdrawal and leaving, nothing like the welcoming figure above. Shadow stays connected to her feet at all times, no duplicate or floating shadows, realistic human silhouette only.

Lighting: soft shadowless flat light on subject, natural skin texture, no plastic look; separate hard spotlight for crisp wall silhouette with soft edge glow. Warm jewel-tone cinematic grade, tender yet quietly aching.

Ultra-photorealistic, RAW, 8K, DSLR depth of field, real materials and light physics.

Reference photo attached — preserve exact same face, features, skin tone, hairstyle, body proportions, identity unchanged. Vertical ultra-realistic editorial photograph, visual irony concept, vast negative space.

Subject: a man mid-celebration, one fist raised up, head thrown back in a genuine laugh, body slightly turned as if reacting to a friend beside him (no one else in frame), full of loud joyful energy. Wearing a casual bomber jacket, fitted tee, jeans, sneakers — realistic fabric texture and creases.
