

“CHATGPT BLOSSOM BREAK PROMPTS BY SAJAWAL CREATES”

FOR GIRLS:

PROMPT:

Using the 1 uploaded reference photo of the girl's face, reconstruct her face accurately and place her in this exact surreal editorial scene, ultra-realistic, HD quality:

Seated in pure side profile on a simple pale blue upholstered chair, positioned in the middle of a wild yellow daisy flower field. Head tilted back at 45–60 degrees, chin raised high, eyes completely closed, face turned up toward a deep, saturated cobalt blue sky filling the entire background.

Wearing a cream-white oversized checked blazer with matching wide-leg trousers (full matching suit set).

Small white round breakfast table to the right, with a golden croissant on a plate and a tall glass of milk.

Dense wild yellow daisy wildflowers surrounding the chair in all directions, some blurred out-of-focus yellow flowers in the foreground for natural bokeh depth.

Lighting: strong direct overhead midday sunlight hitting the face and shoulders from above, creating clean natural shadows under the chin and jawline, warm glowing skin texture with visible natural pores and fine detail, soft realistic skin tones.

Camera: shot on a professional DSLR/mirrorless camera, 85mm lens, shallow depth of field, sharp focus on face and upper body, photorealistic textures on fabric (visible weave of blazer), realistic hair strands catching sunlight.

Style: high-end editorial fashion photography, ultra-HD, 8k detail, vivid saturated colors, crisp clean composition, magazine-quality realism.

Important: the face must be naturally reconstructed to match the reference photo's features, with realistic overhead sunlight illumination — not a pasted or flat face — seamlessly blended into the outdoor lighting and environment. Ratio: 4:5

FOR BOYS:
