

“SAJAWAL CREATES PROMPT - 7”

Transform my uploaded character reference image into an ultra-realistic cinematic editorial sports poster while preserving my real identity with maximum accuracy. Maintain the exact facial structure, hairstyle, skin texture, expression, age, proportions, jawline, eyes, nose, lips, and all recognizable features. Do not change the person's identity.

Create a premium chest-up portrait with the subject turned approximately 35–45 degrees away from the camera, looking slightly upward with a calm, confident, determined expression. The portrait should have a dramatic monochrome black-and-white treatment with rich cinematic contrast, realistic skin pores, crisp hair detail, sharp eyes, and professional studio-quality lighting.

The subject should wear a plain black premium textured athletic knit crewneck with no logos, branding, patterns, or graphics.

Poster Layout:

- * 4:5 vertical composition.
- * Deep royal Red rectangular background panel.
- * Warm off-white textured paper border surrounding the poster.
- * Minimal, clean, luxury editorial design.
- * Subtle paper grain and premium print texture.

Lighting:

- * Soft key light from upper front-left.
- * Gentle rim light.
- * Deep cinematic shadows.
- * High dynamic range.
- * Sharp facial definition.

- * Professional magazine cover quality.
- * Clean monochrome face with rich blacks and bright highlights.

Typography:

- * Place the word "YOUR NAME" above the signature.
- * Font: clean modern sans-serif, uppercase, widely spaced.
- * Color: Same royal RED as the background panel
- * Place a large handwritten brush-signature text reading "YOUR NAME" across the lower chest.
- * Font style: elegant brush signature with realistic paint texture.
- * Color: Pure White (#FFFFFF).
- * Large enough to overlap slightly with the torso for a premium editorial look.

Do NOT include any jersey number, logos, watermarks, brand names, icons, badges, club emblems, or extra text.

Background:

Solid royal blue panel only. No smoke, no gradients, no patterns, no extra objects.

Quality:

Ultra-realistic, 8K, DSLR quality, premium sports editorial poster, Nike-style campaign aesthetic, cinematic lighting, razor-sharp focus, realistic human skin texture, subtle film grain, premium magazine print finish, social-media-ready.

Negative Prompt:

extra text, incorrect spelling, duplicate face, blurry face, low quality, plastic skin, cartoon, anime, AI artifacts, distorted anatomy, warped eyes, extra fingers, overexposed highlights, noisy image, random graphics, logos, watermark, jersey number, cluttered background, low resolution.
